Ramon Silva

Developer Front End | Angular | Ionic
Brasília, Federal District, Brazil

Summary

With a solid background in Information Systems and experience as a Front End and Mobile Developer, my main focus lies in creating dynamic and responsive interfaces using Angular and Ionic. My curiosity and desire for evolution motivate me to study Java and C#, with the goal of working as a Full Stack Developer, an area I directly connect to my interest and studies in Cloud Computing and DevOps. I consistently invest in improving my English to expand my global career opportunities.

I believe that Cloud Computing and DevOps practices are fundamental pillars for technological innovation, and I dedicate time to exploring their nuances and potential. I am a professional who values best market practices, always striving to deliver high-quality, efficient, and scalable solutions.

My goal is to continue growing professionally, joining teams that develop innovative and challenging projects, where I can apply my knowledge and contribute to significant results throughout the entire development cycle.

Experience

GFT Technologies
